

Announcement:

Michael Farrow has been appointed chairman of the CRC Chief Range Safety Officer Committee. Please contact Michael with any comments or questions about safe operations at the range. Hopefully, we will be able to have a CRC approved SOP by mid September.

Reminder - shoot only at approved targets. Some people on the high power range have been shooting glass at 50 yards. Also, for some reason, some people have been shooting across one of the pistol ranges. If we have to label "DOWNRANGE" for the people, they should not be handling guns.
